

# KOLLER DÁNIEL

COMPUTER SCIENCE STUDENT

## EXECUTIVE SUMMARY

I am studying to be an IT engineer at the Óbuda University, where I chose Big Data and Business Intelligence specialization. Now I am looking for an internship. Later I want to be data engineer or data scientist or I want to work with big data.

## MY SKILLS

### Hard Skills

- C#
- SQL
- NoSQL
- Python
- Git

### Soft Skills

- Independence
- Attention to detail
- Flexibility
- Ability to work in a team

## LANGUAGE SKILLS

 Hungarian

 English

 German

## HOW TO CONTACT ME

Addresses: 2300 Ráckeve and 1034 Budapest

Phone: (+36) 204922395

Email: koller.daniel00@gmail.com

Github: <https://github.com/kollerdaniel>

Website:

## FREETIME ACTIVITIES

In my free time, I listen to podcasts about data mining, data science and programming. I practice my programming knowledge with online mini courses, such as Sololearn. When I get the chance, I play table tennis. I also like to run and ski.

## SCHOOL BACKGROUND

### 2013 - 2019 - Ady Endre High School Ráckeve

My advanced final exam was five.

### 2019 - Present - Óbuda University

Continuing studies at Computer Science Bachelor

- Big Data and Business Intelligence specialization

## ACQUIRED KNOWLEDGE

### C#

- Learnt advanced C# programming
- Learnt LINQ
- Learnt about the Entity Framework
- Learnt Lambda expressions
- Learnt Unit testing with Mock
- Learnt MVVM and MVC design patterns
- Learnt WPF fundamentals

### SQL

- Learnt Oracle database management system structure
- Learnt SQL processing
- Learnt database tuning
- Learnt explain plan
- Learnt CBO stats
- Learnt PL/SQL fundamentals
- Learnt analytic functions

### NoSQL

- Massively parallel processing database
- NoSQL database structures:
  - MongoDB
  - Neo4j
  - Redis
  - HBase

### Python

- I am newbie at this language
- I learn from myself and in this semester I will learn data science fundamentals
